PROFESSIONAL SUMMARY

Full Stack Engineer with 2+ years of experience in backend microservices, enterprise GenAI integration, and cloud-native infrastructure. Proven expertise in building low-latency API gateways, self-hosted LLM/Speech pipelines, and high-performance React applications (Node.js, FastAPI, TypeScript, PostgreSQL, Redis, Docker, Keycloak). Alumnus of NIT Jamshedpur.

EXPERIENCE

Esyasoft Technologies Private Limited

Software Engineer

Aug 2025 – Present

Bengaluru, Karnataka

- Architected an enterprise GenAI platform using a **Node.js API Gateway** and **FastAPI microservices** handling conversational analytics across utility operations, serving 100+ internal users and high daily request volumes.
- Engineered an AI orchestration layer that classified natural language intent and dynamically routed requests across 8+ distributed microservices (load forecasting, billing analytics, asset management, and energy theft detection).
- Integrated multilingual speech processing pipelines using **Whisper (STT)** and **Coqui (TTS)** with FastAPI services, delivering low-latency voice interactions across English and 4 Indic languages.
- Implemented enterprise IAM with **Keycloak, OAuth2, OIDC, JWT, and RBAC**, establishing fine-grained, geography-aware data authorization across regional utility circles.
- Optimized platform performance using **TanStack Query** server-state caching and **Nginx** reverse proxy caching, eliminating 60% of redundant API calls and cutting page load latency by 1.5 seconds.
- Led primary backend development in **TypeScript** using **Zod** for strict type-safe validation, securing business workflows across distributed AI services.

Odoo India Private Limited

Software Developer Intern

Feb 2025 – Jun 2025

Gandhinagar, Gujarat

- Shipped 6+ production-ready features across Payroll, Recruitment, Time Off, and Expenses modules; all changes were code-reviewed and **merged into the official Odoo 18 upstream codebase**.
- Developed backend business logic, PostgreSQL models, and ORM query optimizations following enterprise Python guidelines for high-concurrency environments.

Tata Consultancy Services

Programmer

Feb 2021 – Jun 2022

Kolkata, West Bengal

- Managed 45 Red Hat Enterprise Linux (RHEL) servers supporting mission-critical airline operations, reducing incident downtime by 60% through proactive server monitoring and preventative maintenance.
- Automated backup replication, system patch management, and security compliance validation using **Bash scripting**, reducing manual operational workload by 40 hours monthly.

TECHNICAL SKILLS

- Languages:** Python, TypeScript, JavaScript, SQL, Java, C++, HTML5, CSS3
- Backend & Microservices:** Node.js, Express.js, FastAPI, REST APIs, Microservices, Zod, Swagger/OpenAPI
- AI & GenAI Systems:** LLMs, Self-hosted LLMs, vLLM, Prompt Engineering, Intent Classification, Whisper STT, Coqui TTS, NLP
- Databases & Caching:** PostgreSQL, Redis, Microsoft SQL Server, MongoDB, MySQL
- Frontend:** React.js, Vite, Redux Toolkit, Mantine UI, Tailwind CSS
- DevOps & Security:** Docker, Docker Compose, Nginx, Keycloak (OAuth2/OIDC/JWT), Azure Pipelines, Git, Linux, Bash
- Core CS:** Data Structures & Algorithms, System Design, DBMS, Computer Networks, Operating Systems

PROJECTS

Meter Data Management System (MDMS) | *ASP.NET Core, Entity Framework Core, MSSQL* [GitHub]

- Delivered a utility-grade Meter Data Management System automating electricity billing through configurable Time-of-Day tariff calculation engine.
- Designed normalized database schemas and hierarchical power-network models, exposing secure REST APIs for scalable billing, reporting, and analytics.

Naya Nivas | *React.js, TypeScript, Node.js, Express.js, MongoDB* [GitHub]

- Built a full-stack real estate marketplace with a TypeScript-based React frontend, JWT authentication, REST APIs, and role-based property management.
- Integrated Google Cloud Storage for scalable media management across real estate property search, listing, buying, and renting workflows.

EDUCATION

National Institute of Technology, Jamshedpur

Master of Computer Applications (MCA)

2022 – 2025

Jamshedpur, Jharkhand

Techno India Institute of Technology

Bachelor of Computer Applications (BCA)

2017 – 2020

Kolkata, West Bengal
